

**REMARKS/ARGUMENTS**

The Applicant is of the opinion that the graphic depiction of the resilient sealing element 44 as illustrated in the originally filed Figure 6 does not accurately represent the sealing element used in the current prototype of the present invention. Therefore, the Applicant respectfully seeks to amend Figure 6, and requests that the attached replacement page of Figures 5 and 6, including an amended graphic depiction of the resilient sealing element 44 in Figure 6, be used during the examination of the present application.

Respectfully submitted,
